THE PROCEEDINGS OF CONGRESS.

Contested Election Cases Occupy Both
the Senate and House, but No Final
Action Taken—Prospects of the World's
Fair Bill—Other Dispatches.

WASHINGTON, April 12.—In the senate
yesterday, after the transaction of routine
business, consideration of the Montana
election case was resumed and Mr.
Everts spoke in favor of the Republican
claimants. Discussing the powers of the
territorial canvassing board, in which,
he said, there were no limitations im-
posed by the statute in words. By that
he meant, he said, that its powers were
unlimited within the sense that it be-
longed to the phrase to which it was
applied. He criticized the governor of
the state for placing a janitor at the
door of the court house assembly, to ad-
mit only such persons as were entitled
to go in, thus making him, for the occa-
sion, the judge of who were and who
were not elected as representatives.

Mr. Gray defended the governor of
Montana from this criticism, and asserted
that the only direction given to the
janitor by the governor was to admit
every one who claimed to be a member
of the house of representatives.

Mr. George, criticizing the action of
the Silver Bow county canvassers in
throwing out the votes of Precinct No.
34, asserted that there was not a Repub-
lican senator who, in the face of the
American people, would say on his
responsibility that the board had the
right to do what it did. No other part
of the inquiry could have been trans-
acted. He asserted that the body call-
ing itself the legislature of Montana had
not passed a single law, and that if "this
honorable court" should seat Sanders
and Powers, it would, by that action,
give life and validity to "the only thing
which that miserable assembly, begotten
in fraud and conceived in iniquity, ever
performed."

Mr. Teller—if there was no legislature
in Montana, I should like to know on
what theory and hypothesis the minority
of the committee says that Clark and
Maginnis were elected.

Mr. George—I am not a part of the
minority, but I think that the differences
between the two sets of claimants is just
simply this: Neither has a legal title;
neither represents the legislature; but
Maginnis and Clark represent the honest
vote of the people of Montana, and, for
all purposes of life and death, it is far
better to represent the honest vote of the
people of Montana than to have seats in
the senate as the beneficiaries of this
fraud.

Mr. Hour gave notice that on Monday
he should ask the senate to remain in
session until the Montana case was dis-
posed of.

Mr. Hawley, from the select commit-
tee on the Quadro-centennial celebra-
tion, reported back, with amendments,
the house bill for the world's fair at
Chicago, and said that if anything was
to be done in the matter it should be
done at once. He said he hoped that the
matter would not lead to any serious
debate, and hoped to have it
taken up and passed on Monday.

After an executive session, the senate
at 5:55 adjourned.

In the House.

WASHINGTON, April 12.—In the house,
Mr. Lacey, of Iowa, called up the con-
tested election case of Wadell vs. Wise,
from the Richmond, Va., district, and
made an argument in favor of Mr. Wad-
ell, the Republican contestant.

Mr. O'Farrell, of Virginia, supported
the resolution of the minority of the
committee, which declares the seat
vacant. After reviewing the case, he
branched off into a discussion of the
race question, asserting the superiority
of the Caucasian race, and criticizing
the Republicans of the north for having
done no political favors for the colored
man.

Mr. Morse, of Massachusetts, denied
this, and said that colored men had
frequently sat in the Massachusetts leg-
islature.

Mr. Greenhalge, of Massachusetts,
and Mr. Bergen, of New York, spoke in
favor of the contestant, and Mr. Crisp,
of Georgia, gave an able presentation of
the case of Mr. Wise, the sitting mem-
ber from a legal standpoint.

Mr. E. B. Taylor, of Ohio, discussing
the race question, asked if the condition
of affairs at the south could always re-
main so, and the country exist. He
would rather have a Democratic house
honestly elected than to have affairs as
they stand.

Without action on the case the house,
at 5 o'clock took a recess to 7:30 p. m.,
the night to be for the consideration of
private pension bills.

Pan-Americans Entertained.

WASHINGTON, April 12.—President
Harrison, accompanied by the members
of his cabinet and the delegates to the
Pan-American conference, reviewed the
regular troops and the District National
guard on the Monument grounds yester-
day afternoon. About 4,000 soldiers
passed before the president and the dis-
tinguished party accompanying him.
The weather was beautiful, and the re-
view attracted a great crowd of people
to the spacious grounds south of the
president's mansion.

At the conclusion of the review the
Pan-American delegates drove to the
Arlington hotel, where the ladies of the
Silk Culture association, of Philadelphia,
presented to each country represented in
the conference a beautiful flag, made of
silk grown in the United States.

The Pan-American conference yester-
day discussed the report of the commit-
tee on banking, and received the report

of the committee on arbitration. Here-
after the conference will meet daily at
11 a. m. and continue its sessions until 6
p. m., in order to conclude its labors by
the 18 inst., the day fixed for starting
on a tour through the south.

The World's Fair Bill.

WASHINGTON, April 12.—Senator Haw-
ley yesterday, from the select commit-
tee on the world's fair, reported favora-
bly to the senate, with amendments,
the house bill providing for holding the
world's fair.

The senate committee amended Sec-
tion 8 of the bill by adding the follow-
ing: The president is hereby author-
ized and empowered to hold a naval re-
view in New York harbor in April,
1893, and to extend to foreign nations an
invitation to send ships-of-war to join
the United States navy in rendezvous
at Hampton roads and proceed thence
to sail review.

The committee also empowered
the president to hold a review of the
columbus centennial, with appropri-
ate ceremonies, and civil and mili-
tary parades, under his general direc-
tion, after said naval review, and not
less than five days before the opening
of the exposition and to wait the attend-
ance thereof of foreign representatives.
A few other minor changes were also
made.

RANDALL NEAR THE END.

The Physicians Expect His Death at Any
Moment.

WASHINGTON, April 12.—Mr. Randall
grew gradually weaker throughout yester-
day, and early in the evening his
physicians reported him as scarcely
alive. During the evening he continued
to sink slowly, and at midnight the
doctor in attendance said he did not see
how he could possibly live through the
night.

At 2 a. m. the news from Mr. Ran-
dall's bedside indicated that death at
any moment would not surprise those
watching about him.

NOT THE BENDERS.

The Suspects Released, There Not Be-
ing Evidence Enough to Hold Them.

CHICAGO, Ill., April 12.—Mrs. Griffith
and her daughter, of Niles, Mich., al-
leged to be the noted old Mrs. Bender
and Kate Bender, were released yester-
day on habeas corpus proceedings
brought by their attorney. They intro-
duced the affidavits of the matron of
the Michigan penal institute, showing
that Mrs. Griffith was confined there
for manslaughter at the time the Ben-
der crimes were committed.

Affidavits were also introduced,
proving an alibi for the daughter.
County Attorney Morrison, representing
the state, introduced the testimony of
Mr. Stewart, who swore positively that
Mrs. Griffith and her daughter were the
Benders. At the conclusion of the case
Judge Collins ordered the release of the
prisoners. The county commissioners
purchased tickets for Mrs. Griffith and
her daughter, and they were sent back
to Niles yesterday.

A Woman Mysteriously Murdered.

HURLEY, Wis., April 12.—The body of
Lotta Morgan was found in the rear of
Lynn's saloon at an early hour yesterday
morning, with a terrible gash over the
right temple, evidently inflicted with an
ax. She left the saloon of John Sullivan's
Thursday night, going out by the back
door, and was either struck down as she
passed behind the saloon adjoining, or
was enticed back again and afterwards
murdered. The affair is shrouded in
mystery, there being not the slightest
clue to the murderer. The deed could
not have been committed for robbery, as
her elegant diamond rings were still on
her fingers, and over \$20 was found in
her dress pocket. The woman has lived
in Hurley for four years and was not
considered a tough woman of her class.

In Eyraud in Mexico?

CITY OF MEXICO, April 12.—Much ex-
citement has been caused here by the
reported arrest, at Chilpancingo, of
Eyraud, the murderer of Gouffé, of
Paris. It appears that a Frenchman,
who claims to be Baron Leopoldo An-
dres Paulhan, was taken in custody at
Chilpancingo upon suspicion of being
Eyraud. He was afterward released,
but the authorities are still suspicious
and have him under surveillance. The
baron claims to be en route to Acapulco
to take a steamer for Panama.

Lightning on a Clothes Line.

OWINGSVILLE, Ky., April 12.—During
a thunder storm Wednesday afternoon
Miss Lida Flood was struck by lightning
at her home a few miles east of here.
The young lady was taking clothes from
a wire line, when the lightning ran
down the wire and jumped off onto Miss
Flood's hand, and running up to her
shoulder and down her breast and stom-
ach, burning her in a fearful manner.
This, with the shock she received, ren-
ders her condition critical.

Death of a Noted German.

MINNEAPOLIS, Minn., April 12.—Fred-
erick Von Schlegel, judge of probate of
Hennepin county for a number of years,
died this morning of cancer of the liver.
He was a Republican. He had been
educated in Germany and served in the
German army in the body guard of the
emperor. He was a cousin of Chancellor
Von Caprivi.

Smoked Cigars.

LANCASTER, Pa., April 12.—John H.
Stauffer's cigar factory, Bach's cigar
factory, Bomberger & Company's hard-
ware warehouse and five frame stables
adjoining in the borough of Litiz, were
burned yesterday. The loss to Stauffer
is \$30,000; insurance \$18,500. The other
losses amounted to \$1,000.

Navigation Opens.

CHICAGO, April 11.—The news was re-
ceived Tuesday that the Straits of Mack-
inaw were free of ice. Accordingly, the
big grain fleet which has been waiting
here, for Buffalo and other lake ports,
stood away.

Weekly Trade Review

Condition of Business Accord-
ing to Dun & Company.

A VERY SATISFACTORY REPORT.

The Second Quarter of the Year Entered
Upon With Great Hopefulness—The
Speculative Market Reported Active
and Money Easy.

NEW YORK, April 12.—R. G. Dun &
Company's weekly review of trade says:
With larger tonnage in motion than in
any previous year at the same season, a
larger volume of currency in active cir-
culation, larger payments through clear-
ing houses by nearly 10 per cent., larger
imports and exports, and larger domes-
tic production in agriculture, in iron and
steel, leather and boot and shoe manu-
facture, the country has entered upon the
second quarter of the year with great
hopefulness.

Trade throughout the country seems
gradually improving, yet there are un-
favorable symptoms which do not dis-
appear, but grow more distinct and
threatening. Several failures with un-
pleasant features have disturbed confi-
dence. The coal trade and woolen man-
ufacture do not improve. Winter wheat
has sustained some injury from the un-
usual season. Proposed tariff and other
legislation causes uncertainty in many
branches of trade, which is likely to in-
crease with prolonged delay. The wars
of railroads grows more threatening to
investors. At the same time labor dis-
turbances begin to menace important in-
dustries.

The iron industry has advanced too
rapidly—the expected setback has be-
gun. The production for the quarter
may be estimated at 2,350,000 tons,
against 1,900,000 last year, and stocks
on hand are accumulating. Prices are
lower. The business in bar iron is
better, with no change in price; plates
are moving at very unsatisfactory
prices and structural iron is not so
active as makers wish. The threatened
strikes in building trades will affect
this branch. Coal is still stagnant.

The speculative markets have been
more active, with a higher range of
prices on the whole. The average of all
prices for commodities is but a shade
higher than a week ago, some manu-
factured products having declined.

Reports from other cities are more
generally favorable than is usual. At
the south, outside the direct effect of
floods, trade is good and less time is
asked than usual.

The monetary situation does not
threaten. The Bank of England has re-
duced its rate to 3 1/2 per cent., and the
United States treasury has paid out
during the week \$4,100,000 more than it
has taken, but foreign exchange has ad-
vanced a cent to \$487.7-8. The exports
of products are falling off a little, while
imports continue large. So that, in the
absence of foreign purchases of securi-
ties gold exports may occur, but for
some time to come the money market is
likely to be well supplied.

Interior markets are generally easier.
Complaints of slow collections are
distinctly less frequent. It is not
to be overlooked that the west
and south have been drawing
from the east enormously for pro-
ducts sold, while purchasing of goods
not much more than in other years.
Thus the eastbound tonnage for the past
few weeks from Chicago has been 412,
464 tons against 296,713 last year, but in
quantities or values shipped westward
no such increase is discoverable.

Failures during the last seven days
number for the United States
176, for Canada 33, total 209;
compared with 204 last week.
For the corresponding week of last year
the figures were 212 in the United States
and 27 in Canada.

A Miami-Burg Minister Goes Wrong.

MIAMI-BURG, O., April 12.—This vil-
lage is excited over the revelation that
Rev. Edward Mason, pastor of the Pro-
gressive Brethren church, is a confessed
forger and robber. He left home April
3, ostensibly to preach a funeral sermon
at St. Louis, but a letter to his wife re-
ceived yesterday relates that he is in
New York, and confesses that he has
robbed her of her little fortune and
victimized several persons at Dayton of
various sums of money through forger-
ies. He does not say what he did with
the money. Mrs. Mason is prostrated
by the blow.

Poisoned By Diseased Meat.

INDIANAPOLIS, Ind., April 12.—The
state board of health has received in-
formation from Elletts Park, Benton coun-
ty, that a family of eight persons has
been poisoned by eating the meat of a
diseased hog. Dr. Mavity, the local
physician, pronounces the disease to be
trichinosis, and a sample of the meat
has been sent here for analysis.

Fueling a Record of Crime.

WAYNESBORO, Miss., April 12.—The
trial of Rube Smith for train robbery
was concluded yesterday. The argu-
ments of counsel occupied until mid-
night last night. If Smith is acquitted
here he will be taken to Lamar county
for trial on four indictments for rob-
bery and grand larceny. He has a long
criminal record.

Escaped from the County Jail.

LEBANON, Ind., April 12.—Five pris-
oners made their escape from the
county jail at this place last night by
prying the jail door off its hinges with
an iron bar. Charles Miller, who is in
jail awaiting his trial upon the charge
of murder, is the only prisoner who re-
mained.

Earthquake Felt in Maine.

DOVER, Me., April 12.—An earthquake
shock was felt here yesterday morning
a few minutes before 3 o'clock. A noise
like that caused by an explosion was
first heard, and then the earth trembled
for several seconds.

ESCAPED FROM SING SING.

Two Convicts Enjoy Freedom for a Short
Time, But Are Recaptured.

SING SING, N. Y., April 12.—At 3
o'clock yesterday afternoon Deputy
Warden Connington, of the state
prison, saw Leander Lee, one of the
guards, crawling down the stairs in the
prison covered with blood, his clothing
torn and his hand tightly bound with
rope. He had been assaulted by some of
the convicts and an escape made from
the prison. Keeper See had taken James
Kelly and Michael Feeney, two convicts,
to clean the old female prison, prior to
locking the prisoners up for the night.

As they entered the building Kelly saw
August Clint, the only convict in the
building, cleaning lamps. Kelly grabbed
Clint and threw him into a cell and locked
the door. Feeney grappled with the
guard and a desperate struggle ensued.
Before See could draw his revolver or
make any outcry he was knocked down
by a blow on the head with a hammer
given by Kelly. His keys and revolver
were taken from him and he was beaten
into insensibility and bound hand and
foot. Kelly and Feeney then went to
Keeper See's room and donned two
suits of See's clothing, and, going down
stairs, unlocked a side door and made
for the woods towards New York city.

On recovering consciousness Keeper
See managed to loosen the rope and
crawl down stairs. Warden Brush
called out the reserve guard, and armed
with carbines, they began the search for
the escaped men. About dusk they
came up with them several miles from
the prison in the woods. They were
ordered to throw up their hands which
they did, and were quickly handcuffed
and taken back to the prison.

The guard will receive the standing
reward offered by the state of \$50, for
the recapture of each escaped prisoner.
Keeper See, although badly injured,
will recover. He was taken to the
prison hospital. Feeney and Kelly are
desperate New York criminals. Feeney
is serving a ten-year sentence. Kelly
served twenty years in Clinton prison
and, while there, he attempted to kill
Keeper Gray. He is about 48 years of
age, and has served more than half his
life in prison.

WIND STORMS PREDICTED.

Low Central Over South Dakota, and
Moving Eastward Slowly.

WASHINGTON, April 12.—The signal
office furnishes the following special
bulletin to the press:

A storm of considerable intensity is
central in South Dakota. Unusually high
temperature prevails in the central val-
leys, extending northward to south Min-
nesota and South Dakota.

A decided fall of temperature has,
however, set in from the northwest, and
the temperature gradient is so sharply
marked in Minnesota and South Dakota
that the thermometer records a range of
thirty degrees between adjacent stations,
with corresponding barometric gradient.
Wind velocities are reported on the
eastern side of the storm of fifty miles
per hour (southwest) at Chicago, on the
southern forty-eight miles (southeast) at
Elliott, Tex., on the western forty-two
miles (west) at Rapid City, Dak., and on
the northern side thirty-six miles (north)
at Moorhead, Minn.

Signals for high winds have been or-
dered for the lakes, and warnings sent
out of severe local storms in South Da-
kota, South Minnesota, Iowa and East-
ern Nebraska. The storm is moving
slowly to the eastward, and will be ac-
companied by high winds in Indiana,
Illinois and Missouri.

FURNITURE EXPOSITION.

Cincinnati Manufacturers Will Exhibit
Their Wares in July and August.

CINCINNATI, April 12.—The furniture
manufacturers of this city perfected an
arrangement Wednesday evening pro-
viding for the holding of the first semi-
annual furniture trade exposition, in the
exposition buildings, from July 8 to
Aug. 9. In this exposition no furniture
will be exhibited except that manufac-
tured in Cincinnati. The object of the
exposition is to induce buyers and deal-
ers throughout the Union to visit this
market as early in a crowd as possible.
There are 150 manufacturers in the city,
employing about 4,000 hands, supporting
indirectly about 16,000 people, and turn-
ing out an annual product of \$9,000,000.
Cincinnati is one of the largest furniture
manufacturing cities in the United
States.

GERMONT, W. Va., April 12.—The
Hamilton well, the pioneer in the
Marion county field, began flowing at
the rate of 300 barrels a day Wednesday
night. The well is nearly twenty miles
in advance of all previous developments,
and opens up an entirely new territory.
There is great excitement.

Steam Lighter Burned.

YONKERS, N. Y., April 12.—A steam
lighter with a cargo of 1,200 barrels of
lime was totally destroyed by fire at the
gas house wharf, at this place, at mid-
night last night. The lighter was bound
for New York. The vessel was owned
by Capt. J. M. Kelney. The total loss is
about \$9,000.

A Scheme of Grain Dealers.

KINGSTON, Ont., April 12.—Grain
dealers here are buying barley in large
quantities, and arranging for its speedy
shipment to the United States in antici-
pation of the new American tariff,
which increases the duty. Five vessels
with barley cleared from here within a
week.

Colored Boy Reprimed.

COLUMBIA, S. C., April 12.—Leaphart,
the colored boy who was to have been
hanged yesterday for assaulting and
murdering Miss Rosa Cannon, was re-
primed Thursday night until May 9, on
the ground of a discovery of new evi-
dence in his favor.

Quiet at Samoa.

SYDNEY, N. S. W., April 12.—The
steamer Lurbeek, from Samoa, has ar-
rived here and reports everything quiet
in the Samoan group of islands.

ROSENAU BROS., PROP'S BEE HIVE.

EUROPEAN HOTEL BUILDING, SECOND STREET, NEAR MARKET.

THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors

SATURDAY, APRIL 12, 1890.

THERE are five Republicans reaching for the postoffice plum at Winchester, among them one colored brother.

The Tax-reductionists in the Legislature will fight it out with the Governor and his friends next Wednesday. They had better take Simon Bolivar's advice, and let the rate remain where it is.

The people of Hart County are going to elect Governor Buckner as their delegate to the coming Constitutional Convention. If they do, they will be represented by one of the best men in the State.

The lower branch of the Legislature seems to be getting down to business. It passed over one hundred local bills Thursday, "sustained a veto," knocked the Newport Printing and Publishing Company's lottery franchise gallery west and gave Commonwealth Attorneys annual salaries."

JUDGE MILTON J. DURHAM, Democratic candidate for State Auditor, has been tendered the office of Cashier of the new Central Bank of Lexington. The worry and labor of a hard canvass, which was before him, and a desire to reside in his old home, may induce him to accept the bank office, if he has not already accepted.

DANVILLE has a new Council, and a paper printed in that place says: "The new Board will be called upon to choose a Mayor, Recorder, Town Attorney, City Clerk and Chief of Police." Respectfully referred to Brother Marsh for a yawp.—Republican.

Maysville shouldn't pattern after Danville. There are several matters connected with Danville's new charter that are not very commendable.

SOME Republicans want to tax cotton seed oil, but they don't say a word about taxing lard. Evidently the big pork-packers are behind this scheme. Let's have fair play. The cotton seed oil industries of the South shouldn't be taxed to benefit a few rich men of the West. There has been too much of this taxing one class for the benefit of another in this country already.

THE Republican leaders at Washington are not anxious to have the McKinley Tariff bill debated very much. No doubt they would like to sneak it through Congress without any discussion at all. They don't want the iniquitous features of the measure exposed, but the Democrats will attend to that. They will see that the matter is fully discussed and laid before the people of the country.

THE opposition to the election by the Council of certain city officers does not stand on tenable ground. A few years ago, when this was done, city elections were characterized by sobriety and good order. With the election by the people—the "dear" people, the bully boys, for the large majority of reputable citizens never vote and the pollbooks will prove it—there was a return to drunkenness and debauchery.—Republican.

Your talk about "bully boys," Brother Davis, is all bosh. The people have been electing the city and county officials for years, and the officers so chosen have, with few exceptions, been noted for their ability and their faithfulness and efficiency in discharging their duties. By the way, council has been choosing Deputy Marshals a year or so, and how many of them have been before committees of investigation already?

SUPPOSE some of those who are clamoring against the election clause in the proposed new charter take the trouble to examine the pollbooks of any election for the last half dozen years. It may surprise them to learn that a large and most respectable majority of citizens do not vote, and that, as the Republican stated last week, our rulers are virtually chosen by the purchasable portion of the voting element. It is the good citizen's province to remain away from the polls if he pleases; and if he has cause to "kick" he should go out into the cowlot and kick himself.—Republican.

That's too thin an excuse for wanting to take the election of most of the officers out of the hands of the people. Adopt a good election law, one that will keep ward politicians and bummers away from the polls (and that's the kind of law every city should have) and the citizens will all be found taking an active interest in the selection of the officials.

THE COMMERCIAL CLUB.

The Meeting Last Evening Well Attended—The Barrel Factory Enterprise.

The meeting of the Commercial Club last evening at the Council Chamber brought together a good crowd of leading citizens of this city.

President Thomas was in the chair. He opened the meeting with a few excellent remarks, congratulating the people of Maysville on the organization of the club. It had grown to a membership of one hundred and twelve, but he hoped the number would be increased to two or three hundred. He corrected an impression that had sprung up the past week in reference to the club subscribing stock to any enterprise. That was not the object of the organization. The club does not take stock in any enterprise as a club, nor are the members required to do so. As individuals they can subscribe as much as they please, and to as many enterprises as they please.

Judge Whitaker followed Mr. Thomas, and spoke at some length on the advantages of Maysville as a manufacturing place. His remarks were excellent, and to the point. He referred to the growth of this city, and said that while it may have been slow, yet it had been a steady and substantial growth. As an evidence of this, he referred to the James H. Hall Plow Factory, and said that he could remember when its business was carried on under a small shed. He referred to the growth of W. B. Mathews lumber interests and other enterprises.

Judge Wall, Hon. R. A. Cochran, and others, also made speeches that were excellent, and calculated to do much good.

A subscription of \$3,400 was reported to establish a barrel factory. The matter was continued till next meeting.

Other business was transacted after which the meeting adjourned.

Evicted Irish Tenants Building Up a Town.

OVER EIGHTY HOUSES FINISHED.

Great Preparations Made for the Formal Opening of the New Settlement—Many Noted People to Be Present at the Festivities, Which Will Close With a Brilliant Banquet—Other Foreign News.

LONDON, April 12.—The formal opening of the New Tipperary, the new Irish town established by the tenants evicted from the Smith Barry estate, has been further postponed in order to put the finishing touches on the most important of the buildings. Already eighty resident's buildings have been completed, and a number of shops are in process of fitting up. The market is finished, and will be opened to-day. The preparations for the opening of the market are very elaborate. The building is literally covered with evergreens and flowers.

Among the speakers who are to address the inhabitants of the new town are William O'Brien, Michael Davitt, Sir Thomas Esmonde and several other Nationalist leaders. Mr. T. D. Sullivan, ex-lord mayor of Dublin, has written a poem for the occasion, which it is expected he will read himself. Mr. Parnell has been elected an honorary member of the new town, and at the formal settlement a few days hence, a large number of Liberal and Nationalist lords and commoners will be present. In addition to the popular festivities, on the occasion of the addition of the new star to the Irish constellation, a banquet has been provided for the entertainment of 500 distinguished guests.

Coeval with this spirit of enterprise, the convention of Irish landlords sitting at Dublin are exhibiting a spirit of unrest and opposition to the land policy of the government as expressed in Mr. Balfour's purchase bill. Not only does their denunciation of the measure declare the belief of the convention that it is injurious to the interests of the landlords, but it asserts with equal vehemence that it fails in any respect to relieve the tenants from the hardships they claim to be laboring under.

This declaration is singularly at variance with the contention of the Nationalists that the bill is designed to operate in the interests of the landlords solely, and it is quite as radically opposed to the claim of the ministry that the object of the measure is to confer benefits upon the tenants, far greater than any contemplated by Mr. Gladstone's scheme. In this view it would seem that the bill is destined to please nobody, and its failure is regarded as a foregone conclusion.

Fate of the Riotous Students.
ST. PETERSBURG, April 11.—The official messenger says that the students who took part in the recent agitations had no grounds for dissatisfaction and the authorities finding friendly advice unavailing resorted to stern measures to subdue their insubordination. At the agricultural academy at Moscow fifty-five students have been sent home and three have been expelled. The St. Petersburg university has sent home twenty and expelled two, the technological institute has sent home twenty-three and expelled two, the school of forestry sent home thirteen and expelled two, and fifteen were sent home and two expelled from the veterinary school at Charkoff.

Panle at a Church Fire.
LONDON, April 12.—During the celebration of mass in the Catholic church at Bronschewitz, Hungary, yesterday, the edifice caught fire and was burned to the ground. The congregation became panic-stricken, and choked the exits so that a large number of persons must have lost their lives but for the presence of mind of villagers, who rushed to their assistance and set the stream in motion. Two persons were killed and several injured.

Fixing the Frontier.
LONDON, April 12.—The Portuguese government has sent a commission, headed by Col. Machado, to meet the Transvaal delegates and definitely fix the frontier of the Delagoa region. Although the Delagoa railway was seized by Portugal as a pretext to have the frontier fixed, it is known that France will blockade portions of the slave coast in order to prevent the transportation of arms into Zululand.

Shooting Renewed in Vienna.
VIENNA, April 12.—The disorders which prevailed in the Jewish quarter a few days ago, were renewed in the Favoriten quarter yesterday. The riot was of short duration, however, and was promptly quelled by the police and a detachment of Hussars. The mob was dispersed, and a number of the ringleaders were arrested.

Locomotive Works in Sydney.
LONDON, April 12.—A syndicate of English capitalists has been formed to establish an immense shop for the manufacture of locomotives at Sydney, New South Wales. A number of engineers and skilled machinists have already been sent to Sydney to begin operations.

Looking to May 1.
BERLIN, April 12.—The Post says that there will be a meeting of the Socialist members of the reichstag at Dresden on Sunday next to consider the workingmen's celebration, which is proposed for May 1.

Quiet Reigns in Valencia.
VALENCIA, April 12.—The city has resumed its normal quietude. The Marquis of Cerrallo and his family took their departure yesterday. They were escorted to the railway station by troops.

A Government to Be Impeached.
BERNE, April 12.—The Liberals propose to impeach the Cantonal government of Ticino, on account of the recent embezzlement of 1,000,000 francs by the state treasurer of that Canton.

And She Will Go With Him.
BERLIN, April 12.—The empress and her five children will accompany Emperor William, of Germany, on his visit to Christina in June.

Ten excursion trains consisting of blue Pullman cars each will be run from New England, leaving Boston April 19.

The Cardiff properties are not experimental. The coal and iron have been profitably mined more than twenty years. The location is in the midst of already developed properties. The company owns over 5,000 acres of coal and iron mines and timber lands, situated in the Tennessee counties of Rosne, Cumberland and Morgan. Its city of Cardiff contains over 3,000 acres. There is scarcely any industry which can not find a favorable chance at Cardiff for successful establishment and profit. The development is in charge of men of approved judgment and experience. Excursions to Cardiff for the sale will be arranged from principal cities of the North and West.

Proceeds of sales and \$2,000,000 cash now in the treasury of the company, to be expended in the development of the property by the erection of two one-hundred-ton blast furnaces, one thousand Coke Ovens, Hotel, the largest Basic Steel Plant in America, Motor, Lumber, Rolling Mills, Nail Mills, Electric Light, Manufacturing Plants and Public Buildings.

A plan will be offered which will enable purchasers to secure lots at reasonable and not speculative prices, the intention being to give patrons of the sale a chance to make a profit, as well as the company.

Liberal subscriptions will be made to the capital stock of any worthy industrial enterprise. For further information, prospectus, &c., apply to
W. P. RICE, Quincy House, Boston, Mass.
CORDELY & CO., Bankers, Boston, Mass.

Everybody is invited to call, and a special invitation is extended to the ladies. Country people are invited to bring all their produce to me and make my house their headquarters while in the city.
